

NEO-PAWS™ SIZING CHART

1 of 2

**FOR MAXIMUM
COMFORT &
ACCURATE
MEASUREMENT,
THE DOG'S NAILS
MUST BE
TRIMMED**

**INSOLES ARE AVAILABLE
if a more snug fit is required**

Measure the diagrams to make sure they printed out as the size stated. Place the dog's paw at a normal stance on the diagram that you think matches. Align the back of the pad to the back line then the toes/nails should go over the front line by up to 0.25", and this would be the right size.

Please measure one front and one rear paw; shoes are sold in pairs.
